Secondary Characters presents

## Oklahoma!

Rodgers and Hammerstein's first collaboration remains, in many ways, their most innovative, having set the standards and established the rules of musical theatre still being followed today. Set in a Western territory just after the turn of the 20<sup>th</sup> century, the high-spirited rivalry between the local farmers and the cowboys provides the colourful background against which Curly, a handsome cowboy, and Laurey, a winsome farm girl, play out their love story. Although the road to true love never runs smoothly, with these two headstrong romantics holding the reins, love's journey is as bumpy as a surrey ride down a country road.
